

TXBEX World Best Crypto Currency Exchange and Introducing Affiliate Partnership Program

Based on the Block Chain technology, which led the Fourth Industrial Revolution, the Crypto Currency development is giving an impact on the already existing monetary economy. It is no exaggeration to say that the world is moving into a new era of paradigm. In this era of generational changes, Thanks Holdings Corp. has already been promoting the planning and business of Crypto Currency Mining Business for a year and half, and based on these business background, we established a subsidiary company, TM Blockchain, Ltd, and developed TXD coin, which is a differentiated Crypto currency that connects between real economy and crypto currency economy. TXD Coin is currently being used as a payment method not only in online transactions, but also at actual brick-and-mortar Café Thanks and Thanks Bakery Stores worldwide; and, these franchisees have future plans to expand constantly.

Along with the successful launch of TXD Coin, TM Blockchain, Ltd has opened TXBEX (<http://www.txbex.com>), an exceptional crypto currency exchange model of 2018. TXBEX is developed by EolutionTG, LLC, an IT development company of Thanks Holdings, and is preparing for its official launch.

Above all things, TXBEX Exchange is the first Crypto Currency market which led the Introduction of Affiliate Partnership Program, and TXBEX IAP Program as a specialization system that applies IB (Introducing Broker) which are used in FX Margin transactions and securities transactions. Therefore, it is a business model that grows with all partners participating in the exchange business by distributing profits together with a partner (Introducing Affiliate), which is the main revenue source of the TXBEX exchange. This business model is the projected model on the extension of the existing Thanks Holdings' corporate philosophy of "Use, Share, Earn." It is the first business model to combine the IB system with the Crypto Currency Exchange.

Now, in what way can we participate in the TEBEX IAP (Introducing Affiliate Partnership) Program? You can click on "Generate Link" Button at TEBEX Exchange Website to receive an Affiliate reference link which has the ability to refer potential customers. If a customer subscribes through a referral link, 30% of commission from the customer will be credited to them for introducing the Affiliate account. The commission credited for the Introducing Affiliate account can be redeemed to TXD Coin. Introducing an affiliate provides a separate web page for a separate Affiliate, where people can manage their Commission and withdrawal applications at any time.

[TEBEX Introducing Affiliate Partnership Program]
